

Open Software Center

1. The desktop of your UHasselt laptop normally has a shortcut to Software Center.
2. Can't find the icon? Then, open the Windows search bar and search for **Software Center**.
3. Posix and Posit are the same thing, it's just a typo!

Check connection to the UHasselt network

1. To install applications via Software Center, you must be connected to the UHasselt network.
2. If you work off campus, connect via eduVPN.
3. In addition, check that the **Staff Campus Access** profile is active. If **e-Library Access** is selected, change it first.

Synchronizing Software Center

Are you connected to the UHasselt network but still not seeing the applications you want? Then force Software Center to sync:

1. Open **UHasselt System Info** on your desktop.
2. Click **Tools** .
3. Click **Trigger Software Retrieval** .
4. Wait approximately 25 to 30 minutes.
5. Re-open **Software Center** .
6. Try reinstalling the application you want.

If the application is not listed, see [Software Center: Applications Unavailable | Knowledge Article](#)

Problem persists

- Does the problem persist after the steps above? Then report this via a ticket to the UHasselt Service Desk.
